REQUEST FOR SERVICE INVESTIGATION FORM

Date: _____

Applicant's Name:

_____

Phone: _____

Email:

_____

Type and Size of Service:

_____

Location of Property (911 Address) _____

This fee is to determine if service is available and is an addition to the cost of a new meter.

I understand that my request for service is under the classification of either
STANDARD
Request for one meter is **$100.**

NON-STANDARD
Administration fee is **$350.00 plus cost of Engineer report. Price is dependent on project.**
Any request requiring a line extension, road bore or additional meters will require an application with our Engineer. You will complete the required paperwork including a plat map and number of meters requested. NHSUD will give you an estimated cost before the Service Investigation will be submitted to the Engineer.

I understand that if I request 1 meter, I will not be allowed to request another meter in the future without completing a NEW SERVICE INVESTIGATION application and paying the determined fee based on the Engineers fees.

I understand that I will have to pay a Service Investigation Fee to offset the cost of determining if any Road Bore, Line Extension, and or Line Upgrade is required for service.

If North Hunt SUD determines a road bore, line extension, upgrades, upsizing or any other action needed and NHSUD provides me with an estimate of related charges and I **DECLINE** either Standard or Non Standard Service with North Hunt SUD, my **Service Investigation Fee is forfeited.**

I further understand that it will by my responsibility to pay for any Engineering, Road Bore, Line Extensions, line upgrade, and line upsizing, **IN FULL PRIOR TO CONSTRUCTION.** As determined by North Hunt SUD.

This service request and any estimate pertaining to this installation is **ONLY VALID FOR 30 DAYS.**
